🖼️ School Management ERP System Proposal

Prepared By: Muhammad Rameez Yousuf

Platform: PHP (CodeIgniter / Laravel) + MySQL

Delivery: Responsive Web Application

🎯 Project Objective

To build a complete School ERP system that simplifies and automates core operations like student management, exams, HR, accounts, and library — all through a centralized web-based admin panel.

☐ Modules by Package

◈ Starter Plan (Basic)

- Student Management
- Class & Section Setup
- Teacher/Staff Management
- Dashboard (Basic Analytics)

◈ Standard Plan

Includes all from Starter, plus:

- Attendance Management
- Examination System
- Timetable Scheduler
- Email/SMS Notifications (ready for integration)

◈ Advanced Plan (Full ERP)

Includes all from Standard, plus:

- Library Management
- Inventory Management
- Payroll & HR Management
- Accounts / Fees Collection
- Role-Based User Panel (Admin, Teacher, Parent)

⏱ Delivery Timeline

Tier	Delivery Days	Fast Delivery (Add-On)
Starter	7 Days	3 Days Early (+$30)
Standard	14 Days	3 Days Early (+$50)
Advanced	21 Days	4 Days Early (+$80)

§ Pricing Table

Tier	Price
Starter	$150
Standard	$300
Advanced	$500

⚒ Included in All Packages

- ✅ Responsive (Mobile-Friendly) Design
- ✅ Admin Panel UI with Dashboard
- ✅ Full Source Code
- ✅ Basic Documentation & Setup Guide
- ✅ Free Bug Fixing (14 Days)
- ✅ CodeIgniter/Laravel-based (Clean MVC)

✚ Optional Add-Ons

- Add New Module (e.g. Hostel, Transport): **$40**
- Extra Revision (1 Round): **$20**
- Fast Delivery (as above)

📌 Notes

- School-specific customization is available on request.
- Integration with SMS, Email, or Payment gateways is supported.
- Code is scalable, secure, and well-documented.

📞 Let's Build It!
